

Three complementary types of pairwise supervision

each isolates one factor the judge must learn

Holistic Preference

“Energetic funk groove with
brass stabs and slap bass”

A • real

B • synthetic

A

B

Tie

← experts,
alignment-first rule

Teaches: overall preference on real–real,
real–synthetic, synthetic–synthetic pairs.

Fine-grained Alignment

one attribute only:
“Tempo: 120 BPM”

A • matches ✓
120 BPM

B • mismatch ✗
82 BPM

A

B

Tie

← label by construction

Teaches: did the clip follow the prompt? —
tempo, key, chord, instrument, genre, mood.

Perceptual Quality

same caption,
same source clip for A and B

A • original
clean

B • degraded
codec • low-pass
noise • clipping

A

B

Tie

← label by construction

Teaches: which clip sounds better
when alignment is held fixed.
